An extremely rare palmistry manual written early last century by Mrs Robinson in 1922. A photocopy version of this mostly unknown book on palmistry was given to us years ago by a man who is arguably the most knowledgeable man on palmistry alive today. He is the author of several palmistry books himself, however this relic text that cannot be found in any bookstore (even second hand stores), was the finest book he had ever found to look into a person's future using the lifeline. The man owns every palm book in English. CODE: 27
