MARIANA MILLWAY
FROM BUDERIM QLD

Mariana has performed psychic readings and mediumship for the last 28 years in Europe and Australia. She is a spiritually gifted medium and clairvoyant who receives flashes, pictures, voices and sometimes even names or places relating to you and your life ahead.

THE STORY OF MARIANA . . . Mariana has been a psychic most of her life. Some of her earliest memories of her psychic experiences go back to when she was just two years old. She has been involved in psychic readings and mediumship for almost three decades. Mariana's professional approach is also balanced with a good sense of humour that many clients appreciate.

She is a well known professional in the industry and is respected as a spiritually gifted medium and one who likes to guide others through clairvoyance, insight and sensitivity. She spent many years refining her skills in spiritualist churches as most good mediums have.

Her aim is for people to understand what is meant for them and what they can do about what is meant for them, to guide them towards understanding of how to be active and see solutions rather than obstacles. Mariana is happy to contact deceased loved ones for clients who need to understand, grieve or come to terms with loss and pain related to death and dying.

Mariana was very caring in the way she explained my situation. She gave me hope and gave me the strength to keep my head high. She confirmed all the things that I thought were true. It made me feel good knowing that this is where my life needs to go and to search for what it is I need. Mariana, you were helpful in every way. Thank you.

VAL FARRER
FROM BRISBANE QLD

A sought-after reader in Brisbane, Val receives information through channelling her "people" in the spirit world. In addition to telling you what her guides are passing on, she will also do spirit mediumship for you, if there are some loved ones on the other side looking to communicate with you.

THE STORY OF VAL . . . With over two decades' experience in spiritual development, Val has now solidly been doing readings for the last decade. Like many clairvoyants who have honed their psychic faculties, Val has a strong Spiritualist background. For several years, this spiritualist involvement has included performing *Platform Work*, which is demonstrating clairvoyance on stage.

Val believes that a client shouldn't have to ask too many questions during a reading or supply too much information to the reader. She freely gives the information without being led. Val likes to give you all the information she is receiving first, before you ask any questions if you feel so inclined. Val has Tarot cards, yet usually does not like to use them, preferring to tune in directly; however if you would like her to use the Tarot cards, she is happy to oblige.

Val's readings usually focus on the next three to twelve months, but it really depends on what is needed at the time, and what path the reading goes down. Val is a lovely person to talk to and from time to time you'll have a laugh with her great sense of humour.

Lyvea has only been available on our service for a short time. Client feedback will not be too far away.
