

DAY OF BIRTH

NUMEROLOGY

WITH NUMEROLOGIST BARBARA VANDEBRUG

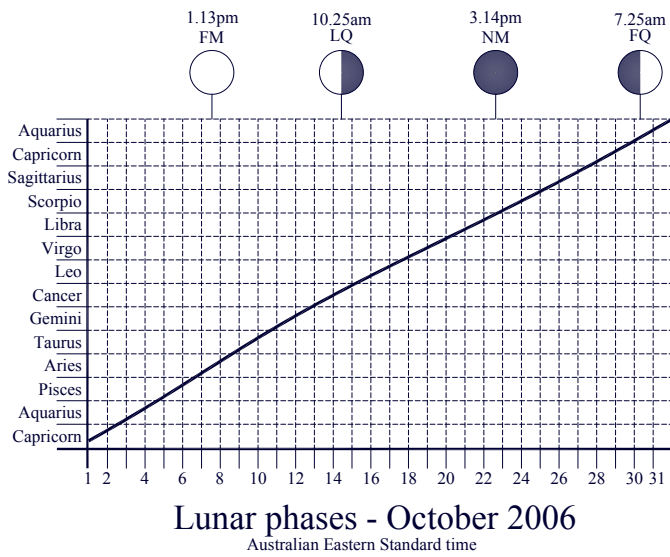

SEPTEMBER

The 9th month in any year is one of action. The number 9 represents wisdom and strength gained through your experiences; it indicates strong, masculine energy with a lot of fire and determination attached to it. The number 9 can be seen to represent the warrior within, your basic drive and your response to confrontation and stress. It is also said to be linked to the mind and particularly to wilfulness and stubbornness.

Traditionally the number 9 means completion, endings, turning points and potential new beginnings; it is seen as energy awaiting your expression.

The combination of this 9 month in an 8 year could create seriousness to do with will and power. Issues where your own inner warrior is seeking to be heard will be highlighted. What is it that you are battling with? Why do you feel that you must battle at all? Stubbornness may prevail and tempers may be pushed to the limits during September. Be prepared to access your inner strength and resources and call your inner warrior to peace and not to battle; call it to lay down its arms and work with you by leading you to see your greatest strengths and assets and let it teach you the beauty in using your energy to create peace and harmony in your own little world.

The number 2 is linked to the Moon and is also the main number in all of our days this millennium. This month there is an interesting Moon event occurring which I feel is worth noting here. As the Moon's orbit is elliptical, there is a point each month where it is closest to the earth, called the Perigee Moon, and another when it is the furthest away. It is said that if the day it is closest to the earth coincides with a Full Moon, this can cause extra gravitational pull on the earth and enhance the effects of the Full Moon. The Perigee Moon rarely comes close to the Full Moon, but this month it does.

On the 8th of September there is a Full Moon and lunar eclipse at approximately 4.43am Australian Eastern Standard Time and the Perigee Moon follows at approximately 1.08pm. The lunar eclipse in itself holds potential for more than the usual Full Moon madness, combined with the Perigee Moon it holds potential for unpredictable weather patterns as well as for strong reactions within us. It will be worth it to take note of this day for its potential of heightened perceptions and extra unsettled energy. Take heed on the 8th as you never know just how you or others will react to this extra gravitational pull upon the tides within!

For those born on the 2nd, 5th, 9th and 19th the number patterns for September 2006 indicate that THIS IS YOUR MONTH!

If you are born on the 2nd go with the exhilaration you feel and voyage into new territory – you will enjoy it! The 8th is brilliantly perceptive for you – trust yourself.

Those born on the 5th won't be able to say a word wrong this month. You have a spring in your step which will be catching! The 18th is a day for you to be inspired and inspiring; beam your light out!
