

others. Make the most of this time as your positivity is set to bring you some good karma. You shine on the 5th with loads of extra energy. Those born on the 10th need to watch the 10th, 20th and 30th as the extra zero on these days could throw water on your fire.

2nd & 20th

You are so emotionally expressive that you sometimes forget about the need for physical expression. This month is a treat for you to enjoy your body, mind AND spirit. Trust your first impressions implicitly as some days are emotionally charged and you could find it difficult to read others, especially on the 21st. Set aside the 5th for some serious pampering!

3rd, 21st & 30th

Your gifted mind shines this month. Don't be afraid to talk out loud to yourself if there is nobody else to listen to you because you have some brilliant ideas which will need vocalising. A particularly lucky time is ahead for you from the 23rd onwards, especially on the 29th where being in the now moment creates potential for financial gains.

4th, 13th & 31st

Conformity won't work for you this month so why bother? Discipline is needed so that you remain focused on exactly what you want and not on what you DON'T want! Creation occurs in the blink of an eye. The 29th is a day where you will see results but what is it that you want?

5th, 14th & 23rd

Restrictions may bother you regarding the need to focus in order to achieve. If you are prepared to go the extra mile it will pay off for you beautifully especially on the 15th. The 27th is a day where a weight will be lifted off your shoulders. Dance with your creations and they become masterpieces.

6th & 15th

Brain fog will create clouds on the horizon for you; get your mind clear and focus on what makes you happy especially on the 6th. Be careful what you ask for in your relationships with others as you might just get it!

7th, 16th & 25th

Extra grounding is especially good for you this month; you are needed right here in this physical reality, not skipping off somewhere in some unknown dimension! Coming out of hiding brings you rewards you perhaps feel you haven't earned - but you have. Accept accolades gracefully especially on the 8th and 18th. The 5th is a day where those born on the 7th will be emitting a lot of power - use it wisely.

8th, 17th & 26th

Manifestation is your thing and you will not disappoint yourself this month. There is extra oomph to everything that you do and you do deserve the rewards coming your way. You are in step and on track now; don't put yourself down in any way.

The 4th is a day where you can find the answers to unsolved riddles.

12th

From the 23rd onwards is a very lucky week for you. You will end up in the right place at the right time if you don't hibernate. On the 29th bless your intuitions for they will save you. On the 21st be aware of your obsessions as they may not be entirely healthy.

18th

Taking time out to get in touch with your soul is very healing for you particularly on the 5th. The potential is for you to clear old stuck emotions and blocked energy; remember that this is not a competition - it is just you and your old stuff. Be kind to yourself before the 22nd and then you reap the rewards. Relationships may prove bothersome on the 18th; take them as they come.

24th

This time of year is magical for you; with positive thinking, your doors will open in the coming months. Your potential is awesome and you have choices to make. When you come to the fork in the road, take your time deciding which way to turn as things are not always as they seem; dead ends might hold a pot of gold. Follow your rainbow on the 27th and see where it leads. ☺

have a giggle!

this issue's spiritual joke . . .

A man is trying to understand the nature of God and asked him, "God, how long is a million years to you?"

God answered, "A million years is like a minute."

Then the man asked, "God, how much is a million dollars to you?"

And God replied, "A million dollars is like a penny."

Finally the man asked, "God, could you give me a penny?"

And God says, "In a minute."

did you know?

this issue's fascinating fact:

What is the oldest living thing on planet Earth? It is a very famous evergreen tree called the "General Sherman Tree". Believe it or not, it is four thousand years old. If only it could speak - imagine the tales it could tell! That makes it as old as the pyramids in Egypt. So how tall is it, you ask? Over thirty-six stories high, with a diameter measuring thirty-six feet at the base. That's one very big tree! Makes you wonder just how long it will live.
